Dear host family,

Thanks heaps for considering me to join you in my exchange program. My name is Samuel however I prefer Sam for short. I have lived in Australia all my life and I decided to go on exchange as a new experience in order to see and learn much more about myself and the world around me. My parents split up last year so I am used to moving between two houses and living without at least 1 parent at a time. At school, I have many different friendship groups and try to be as welcoming as possible to everyone. I believe that I have a good relationship with my teachers and I am currently enjoying senior school.

The subjects that I have chosen this year are psychology, maths, English, religion, physical education and building and construction in which I am doing reasonably well in each of those subjects. I hope to one day become a physiotherapist or a builder so am keeping my options open for both.

As for my life outside of school, I enjoy just about any sports and am currently playing Aussie Rules football and cricket at local clubs. I try to keep as much of a social life as possible as I hang out with my mates after school and on the weekends almost every day however in my down time I enjoy playing some computer games.

I believe that you should choose me as I am energetic and try to make the most of nice weather which would be great for the Swedish summer as I would be interested in a variety of activities. I would be keen to learn a new way of life in a climate that is much different to my own and I would make sure that I am pulling my own weight in your family by doing chores. My goal by the end of my stay would be to leave my host family and friends wanting to see me again and becoming a positive influence into your lives.

Looking forward to seeing you,

Sincerely Sam!!
